BigRio named to NMSDC Top Growing MBEs!

Cambridge, MA – Cambridge-based digital technology consulting firm BigRio is proud to announce that it has been named to the National Minority Supplier Development Council (NMSDC) “Fast 50: Top Growing MBEs.”

The Fast 50: Top Growing MBEs are those NMSDC-certified minority businesses enterprises (MBEs) that have shown the most growth and resourcefulness to scale and meet the needs of their stakeholders during the recent economic uncertainty caused by the COVID-19 pandemic and other supply chain-related issues.

“As a woman-owned minority business enterprise that celebrates diversity in all we do, from the workplace to the startups we try to facilitate and support, we are excited to have been named to the Fast 50,” said Rohit Mahajan, Managing Partner of BigRio.

“These organizations represent the resiliency of our MBE community. We are excited to recognize their accomplishments during the NMSDC 50th Anniversary Conference & Exchange. They provide a shining example of how we can accelerate MBE growth and

achieve our goal of \$1 trillion in annual revenue for NMSDC-certified MBEs,” said NMSDC CEO and president, Ying McGuire.

BigRio Team with NMSDC President Ying McGuire

BigRio is a well-known developer and facilitator for AI and machine learning startups, particularly for those with a focus on healthcare. As such, the company has been instrumental in helping to maintain access to resources for patients and healthcare providers via innovative telemedicine and other AI-based technologies, even through the worst days of the pandemic. It is largely for these efforts that Mahajan believes that BigRio was named to NMSDC’s Fast 50: Top Growing MBEs.

The Fast 50: Top Growing MBEs honorees were recognized and celebrated at the NMSDC 50th Anniversary Conference & Exchange, which was held in New Orleans in November of 2022.
