Discover the Future of Healthcare With Our Customized Onsite, In-Person Healthcare-focused Learning & Ideation Workshops and Webinars to Accelerate Your Generative AI (GenAI) Journey

We believe that Generative AI will be most powerful when it is used to augment, not substitute, human knowledge and creativity. For this reason, Damo and BigRio's GenAI focus is on working with industry leaders and innovators to create custom tools that augment human intellect, allowing people to know more, do more, and create more than ever before.

Unleash the power of GenAI in healthcare with our workshops and webinars. Learn from industry leaders and AI experts as they showcase the latest breakthroughs, use cases, and strategies for leveraging AI to drive innovation, improve patient outcomes, and reduce costs.

Whether you are in healthcare or technology, our sessions provide practical insights to help you excel in the ever-evolving healthcare landscape.

Key Takeaways

- ✓ **Breakthrough GenAI Use Cases:** Gain insights into cutting-edge applications of GenAI in healthcare digital transformation. Topics include clinical decision support, personalized medicine, enterprise chat, LLMs for workflow optimization, and automated diagnostics.
- ✓ **AI-Driven Efficiency:** Discover how AI-powered tools are revolutionizing operational efficiency for hospitals, pharmaceutical companies, and digital health providers.
- ✓ **Real-World Success Stories:** Learn from leaders who have implemented GenAI solutions successfully. Hear their lessons and strategies for overcoming challenges.
- ✓ **Future Trends:** Stay ahead of the curve with a look at emerging trends in responsible AI use and predictions for the healthcare industry in 2025 and beyond.

Successfully Delivered Multiple Workshops and Webinars Including an HBSHAA Webinar

- 300+ participants
- Exclusively for CXOs and Healthcare Leaders
- Highly appreciated for the content, presentation, knowledge, and relevance.
- Workshops conducted at Harvard Club of Boston, Akron's Children Hospital, Baylor Genetics, and others.

TESTIMONIALS

“Gathering a diverse group of clinical and technical leaders, the BigRio/Damo GenAI Workshop offered fresh insights into the current use of AI in healthcare, emerging digital health advancements, and common industry challenges during its keynotes and table workgroups, making the day thoroughly enjoyable, and leaving me anticipating the next workshop.”

Dan Dzina - MBA, Chief Operating Officer, Cosan Group

“Attending GenAI workshop organized by BigRio and DAMO was an enlightening experience that left me feeling inspired to explore further. The speakers were knowledgeable and passionate about the subject matter, making the sessions engaging and thought-provoking. One aspect that stood out to me was the emerging applications of GenAI across various industries. From media, technology to healthcare and life sciences, the possibilities are endless. Overall, I would highly recommend this workshop to anyone interested in diving into the world of generative AI.”

Manjiree Parandekar, Sr Manager, Customer Portal, Baylor Genetics

“Attending the BigRio GenAI workshop was an eye-opening experience, especially when thinking about how AI can support the well-being of young people. As we redesign selfsea, a digital product that fosters connection and support for youth, the insights gained on AI’s potential to enhance human connection were invaluable. The workshop highlighted how AI can address real-world challenges, including youth loneliness, and help us provide personalized, scalable resources. This session affirmed the importance of co-creating with young people and leveraging AI to build a more inclusive, impactful platform.”

Chris Wilson, MPH, AVP, Digital Impact

“I love that it was instructional and also showed the positives and negatives without showing bias.”

Christina Cameron, Vice President, ScribeAmerica

WORKSHOP PACKAGES

Faculty

- Ritu M. Uberoy - Managing Partner, GenAI Center of Excellence
- Corey Thompson - Managing Partner
- Rohit Mahajan - CEO and Managing Partner

Who Should Attend?

- ✓ **C-Suite Executives and Healthcare Leaders:** Explore the latest AI innovations shaping the industry.
- ✓ **AI and Data Scientists:** Understand real-world applications and implementation strategies.
- ✓ **Healthcare Executives and Decision-Makers:** Discover transformative solutions for your organization.
- ✓ **Startups and Businesses:** Identify AI-driven opportunities to accelerate your growth.

Why Choose Us?

- ✓ **Expert Instructors:** Learn from GenAI experts and industry pioneers.
- ✓ **Practical Insights:** Bring back actionable strategies to your teams for pilots and proof-of-concepts that you can implement immediately.
- ✓ **Interactive Format:** Engage in Q&A sessions and hands-on activities.
- ✓ **Flexible Options:** Choose from webinars, workshops, or custom sessions tailored to your needs.
