

BigRio SEWP VI Ordering Guide

Federal IT, data and AI solutions through NASA SEWP VI

Publication draft. Complete and verify the marked contract, contact and service procedure fields before posting. This guide describes BigRio capabilities and the ordering process. Availability of a specific solution or service depends on BigRio's awarded category, contract scope and current SEWP database of record.

Contract at a glance

Field	BigRio contract information
Contract holder	BigRio LLC.
SEWP VI contract number	80TECH26D1195
Awarded category and group	Category C – ITC/AV Mission-Based Services
Contract period	November 1, 2026 – October 31, 2036
Business identifiers	Y1PHD7P2B25
Main office address and phone	Harvard Square, One Mifflin Place Suite 400 Cambridge, MA 02138 Phone number: 8329388189
Contract holder profile	To be added when NASA publishes BigRio's SEWP VI Contract Holder profile

About NASA SEWP VI

NASA SEWP VI is a multiple-award governmentwide acquisition contract for Information Technology, Communications and Audio-Visual (ITC/AV) solutions and services. Its scope categories are A, ITC/AV Solutions; B, Enterprise-Wide ITC/AV Service Solutions; and C, Mission-Based ITC/AV Service Solutions. BigRio's awarded category above, its contract terms and the SEWP database of record determine its orderable items and services.

About BigRio

BigRio is an AI, data and technology services firm. It helps organizations plan enterprise architecture, engineer data and software solutions, implement AI use cases, and operate and improve delivered systems. Website: <https://bigr.io/>.

What BigRio offers

BigRio combines enterprise architecture, data engineering, AI, and delivery expertise to help agencies modernize technology and put it to work. These capability areas do not mean that every described item is currently orderable under BigRio's SEWP VI contract.

Capability	Relevant NAICS	Illustrative work
AI strategy and governance	541618, 541690	AI assessments, use-case roadmaps, centers of excellence, evaluation frameworks and responsible AI controls.
Data and AI engineering	518210*, 541511, 541519*	Data platforms, integration, analytics, machine learning, generative AI and agentic workflows.
Enterprise architecture and modernization	541512*, 541519*, 518210*	Target architecture, application and API design, cloud modernization, interoperability and implementation roadmaps.

Cybersecurity and resilience	541512*, 541519*, 541690	Security architecture, risk assessments and operational controls, subject to contract scope.
Digital products and managed delivery	541511, 541512*, 541519*, 518210*	Custom software, user-centered workflows, deployment, hosting, monitoring and ongoing improvement.
Digital experience and graphic design	541430	Interface graphics, visual assets and graphic design supporting digital products.
Information portals and services	519290	Web search portals, knowledge discovery and related information services.
Computer and AI training	611420	Computer training, AI workforce enablement, developer training and administrator education.
Other professional and technical services	541990	Other professional, scientific and technical services that fit this classification and the awarded contract scope.

Who can use SEWP VI

NASA and other federal agencies, and approved federal contractors, may use the SEWP vehicle. Ordering agencies follow their own acquisition procedures and the applicable SEWP VI contract terms.

How to request a quote and place an order

1. Define the requirement. Describe the mission need, technical specifications or statement of work, deliverables, quantities, performance location, period of performance, security needs and evaluation criteria.
2. Use the NASA SEWP Quote Request Tool at sewp.nasa.gov to conduct market research and issue the request to eligible contract holders. The ordering contracting officer applies fair opportunity under FAR 16.505(b) and the applicable contract.
3. BigRio responds through the prescribed SEWP process with eligible contract items or labor, a priced quote, terms, delivery or performance schedule and quote validity. The agency evaluates responses and documents its selection.
4. The ordering agency issues its delivery or task order through its contracting office. The SEWP Program Management Office reviews, processes and forwards orders to the contract holder. Route order modifications through the SEWP PMO.

Requesting a BigRio quote

For a quote for hardware, software or services, identify the requirement, quantities or statement of work, delivery location and requested schedule, then use the SEWP Quote Request Tool. For BigRio sales questions, use the contact below. Formal SEWP RFQs should be issued through the Quote Request Tool. BigRio can quote only solutions and services available on its SEWP contract and in the SEWP database of record at the time of the RFQ.

Contact purpose	BigRio representative
Quotes and sales	Jim Deely jim.SEWP@bigr.io (857) 365-2955
Installation, warranty and technical or software support	Jim Deely jim.SEWP@bigr.io (857) 365-2955
Order issues and escalation	Rohit Mahajan Program Manager rohit.SEWP@bigr.io (857) 365-2955

Contact purpose	BigRio representative
	Mona Mahajan Deputy Program Manager mona.SEWP@bigr.io (857) 365-2955
SEWP program assistance	help@sewp.nasa.gov (301) 286-1478 SEWP PMO Hours: M-F, 7:30 AM – 6 PM (ET) www.sewp.nasa.gov

Fair opportunity and scope

SEWP VI is a multiple-award governmentwide acquisition contract. Ordering contracting officers are responsible for fair opportunity and agency order documentation under FAR 16.505(b) and contract terms. For an uncertain scope determination, send the requirement summary or bill of materials to help@sewp.nasa.gov. BigRio's contract and the SEWP database of record control what can be quoted or ordered.
